Please read these instructions carefully and follow the installation steps in sequence.

**Tools Required**
- 5/32” Allen Wrench (provided)
- Phillips head screwdriver
- Plastic mallet

**Fasteners That You Will Be Using**

- #87988
  - #10-32 x 5/16” Socket Head Cap Screw
- #66714
  - #10-24 x 3/8” Phillips Pan Head Thread Forming Screw
- #87941
  - #10-32 x 1.50” Thumb Screw
- #87987
  - #10-32 x 5/16” Phillips Flat Head Machine Screw

**INSTALLATION ON 16”/20” LINX ORGANIZER**

1. Insert the top flange of the Mounting Bracket into the channel in the Linx organizer and then drop the bracket down to engage the hooks. See figure 1.
2. Slide the Mounting Bracket into the desired location. Place the Bottom Bracket over the Mounting Bracket and then push the tabs down in between the bottom channel of the organizer and the fabric panel. See figure 2. Secure the bracket with two #10-24 x 3/8" phillips pan head thread forming screws. See figure 3.

3. Install two thumb screws into the threaded holes in the top of the Mounting Bracket. See figure 2. Turn the screws until they make contact with the rear of the organizer. **Do not over tighten.**

4. Attach the ARMS to the Mounting Bracket using four #10-32 x 5/16” socket head cap screws. See figure 3.
INSTALLATION ON TECH ORGANIZER, FOUNDATIONS AND LMS FRAMES

Mounting Bracket (single standard)

The Mounting Brackets for single end standards come un-assembled and consist of a Mounting Plate and a Hook Plate that can be used for either left hand or right hand applications. Note that there are four off-set holes in the Mounting Plate to which the ARMS will be attached. Determine which application is required and assemble the brackets as shown in figure 4.

*Important:* The Hook Plates must be assembled to the side of the Mounting Plates that have “HOOK PLATE THIS SIDE” stamped into it.

4. Insert the hooks on the back of the Mounting Bracket Assembly into the slotted standard at the desired height and push down. Tap the top of the bracket assembly with a mallet to ensure that the hooks are seated. See figure 5. Install a #10-24 x 3/8” phillips pan head thread forming screw into the hole at the bottom of the bracket assembly and tighten securely.

5. Attach the ARMS to the Mounting Bracket using four #10-32 x 5/16” socket head cap screws. See figure 6.
INSTALLATION ON TECH ORGANIZER, FOUNDATIONS AND LMS FRAMES (cont.)

Mounting Bracket (double standard)

4. Insert the hooks on the back of the Mounting Bracket Assembly into the double slotted standard at the desired height and push down. Tap the top of the bracket assembly with a mallet to ensure that the hooks are seated. See figure 7. Install two #10-24 x 3/8" phillips pan head thread forming screws into the holes at the bottom of the bracket assembly and tighten securely.

5. Attach the ARMS to the Mounting Bracket using four #10-32 x 5/16" socket head cap screws. See figure 8.
INSTALLATION ON TECH ORGANIZER, FOUNDATIONS AND LMS FRAMES (cont.)

Mounting Channel

1. Insert the hooks on the back of the Mounting Channel into the slotted standards at the desired height and push down. Tap the top of the channel with a mallet to ensure that the hooks are seated. See Figure 9. Install four #10-24 x 3/8" phillips pan head thread forming screws and tighten securely. See figure 10.

2. Insert the top flange of the Mounting Bracket into the top of the Mounting Channel as shown in figure 10. The bottom flange of the bracket will rest on the bottom of the channel.

3. Slide the Mounting Bracket to the desired location and then install two thumb screws into the threaded holes in the top of the bracket. Turn the thumb screws until they make contact with the rear of the figure 11.

4. Attach the ARMS to the Mounting Bracket using four #10-32 x 5/16" socket head cap screws. See figure 11.
